

For PDF Fillable Requisitions, the following applies:

1. The form shall be completed using a Digital Health assigned computer.
2. Absolutely no personal health information shall be electronically saved on a computer.
3. The completed form shall not be shared electronically. If you reasonably believe that e-mailing the information is the only available method of communication or the only way to send the information then you must adhere to the Privacy guideline titled "E-mailing Personal Health Information".
4. All forms must be completed in their entirety, e.g. if a staff member has only completed half of a form they cannot save their work and then come back to complete it at a later date.
5. Once the personal health information has been recorded onto the form, it is to be printed immediately, deleted (not saved) from the computer, and then stored securely inside the client (paper) health record or scanned into an electronic record.
6. Do not print unnecessary duplicate copies of the form.
7. Regular audits of the Digital Health assigned computer shall be undertaken to ensure that no personal health information is being duplicated and saved.

# Body Fluid Requisition – Biochemistry & Hematology

Fields marked with \* are mandatory and must be clearly legible or can result in specimen rejection

## INSTRUCTIONS

- Select fluid type **AND** the test(s) requested.
- If sample was collected from a drain, select fluid type based on the drain's location (e.g. chest = pleural; abdomen = peritoneal)
- Tests that require a matching blood sample are indicated by a black diamond ♦, and require a separate Biochemistry & Hematology requisition.
- \*\*\*All requests for cell count and differential or Leukemia investigations require an additional sample if Biochemistry tests are also ordered
